Summary

Full-stack MERN developer who builds fast, responsive web apps from database to UI. Comfortable working across the stack — MongoDB, Express, Node.js, and React. I focus on writing clean code, building simple and user-friendly interfaces, and making sure everything runs smoothly and performs well.

Experience

MERN Stack Developer, 1 Year

- Built full-stack web applications using MongoDB, Express, React, and Node.js.
- Added secure user authentication and authorization using JWT and bcrypt for 1,000+ user accounts.
- Developed and Integrated 15+ RESTful APIs to connect frontend and backend features smoothly.
- Fixed bugs, improved performance, and worked on making applications faster and easier to use.

Frontend Developer, 1.5 Years

- Built responsive and user-friendly interfaces using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Used React Context API and Redux Toolkit for state management while building reusable React components to keep the frontend organized, fast, and responsive.
- Worked on frontend performance, bug fixes, and UI improvements to provide a smoother user experience.

Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
State Management: Redux Toolkit, React Context API
Backend: Node.js, Express.js, RESTful APIs
Database: MongoDB
Auth & Security: JWT, Bcrypt.js, Protected Routes
Tools & Practices: Git, GitHub, Problem Solving, Performance Optimization

Projects

AI-Powered Library Management System • Developed an AI-powered Library Management System with book borrowing, online reading, admin panel, and Project Gutenberg integration for importing digital books. • Implemented an AI Story Analyzer and AI Chatbot using Grok and Gemini APIs to provide intelligent content analysis and user assistance.	05/2025 – 02/2026
Food Delivery MERN App • Implemented shopping cart functionality, user authentication using JWT and bcrypt, and protected routes to ensure secure user access and transactions. • Developed a responsive and user-friendly interface using React and Tailwind CSS, providing a seamless experience across multiple devices.	03/2025 – 05/2025
PflegePur Blogging Site • Developed a mobile-responsive health blogging platform using JavaScript and Bootstrap to deliver an optimized user experience across devices. • Implemented search and content filtering functionality to enhance article discovery and improve user navigation.	12/2024 – 01/2025
